

## Pressure Ulcer Tracking Tool

### Instructions

Please note that the cells requiring data entry are in yellow.  
The formulas to the right will automatically calculate the monthly totals and rates.

At the end of each month, enter the number of **residents** with a **new pressure ulcer** and list under community acquired or nursing home acquired

Enter your facility's monthly census number in the designated column.  
Please note that if the monthly census is left blank, the rates and graph based on monthly census will be blank.

**Admitted:** Residents admitted from a community setting (i.e. hospital, another nursing home, assisted living, personal care, home care) , etc)

**Acquired:** Residents who develop a pressure ulcer in the nursing home during a specific month.

All pressure ulcer stages are to be included : Stage I, II, III, IV as well as deep tissue injury and unstagable.

**Do Not** carry over residents with pressure ulcers counted from previous months.

### Please Note:

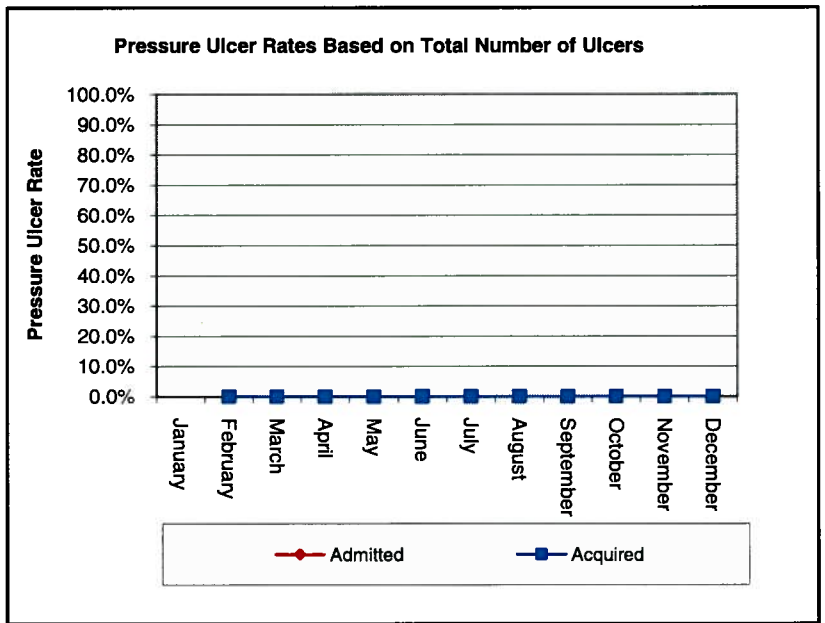

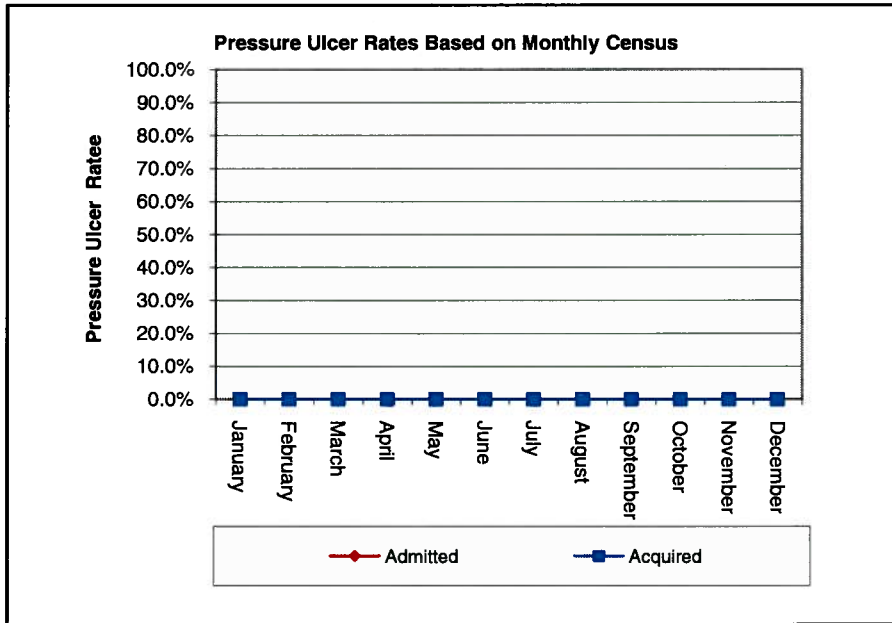

If a resident has a pressure ulcer counted as either a community acquired or nursing home acquired and develops a new pressure ulcer, count the new pressure ulcer

If a resident who has a pressure ulcer is discharged to the hospital and returns with the same stage pressure ulcer, **Do Not** count it again as either an admitted or acquired pressure ulcer

If a resident is sent to the hospital with a PU and returns with a **greater** stage, pressure ulcer count as community or acquired pressure ulcer

**Note: This form counts the number of residents with community acquired or nursing home acquired pressure ulcers**
